пластовий лецетарський табір 2009

Lesh tabir was held at Kalyna Ski Lodge at Mount Hotham from 19 to 26 September 2009. It was a "learn to ski" tabir, and in typical spring weather the new skiiers did indeed "learn to ski" in all conditions, including some night skiing and in the pouring rain!

We were also graced with international guests, Roma from Germany & Yuri from the USA. Big thanks to komendant st pl Pylyp Botte LCh, chief instructor st pl Adrian Magalas ChM, and our chef Cherry.

Monday afternoon in the Jungle...

Hey Сирник, what are you doing these summer holidays?

Thought I might go to Пласт Табір at Сокіл this year Мишка...

...sounds like fun!! We'll have a monkey of a time!

Can I come too??

Mini Visnyk Plast Viktorii. October 2009. Layout & wrangling - st pl Sonya Radywyl. Hey there's elephants. I like elephants. They drive mini's and they leave footprints in the butter in the fridge. It does make it taste funny. I can't fit the giraffes into the mini 'cause its full of elephants. Except when they're in the fridge giggling & standing in the butter.
