sokil stuff

UPSIZED AMENITIES! MORE TOILETS FOR TABIR!

As a result of a \$50K Federal Government Water Grant and much volunteer effort, the toilet block near the yidal'na has been demolished and a new one currently being built in its place, to be ready for tabir. The new block will comprise 5 toilets and 3 showers for the plastyn, and 5 toilets and 3 showers for the plastynka. There will also be 2 family toilet/shower rooms & storage room.

After christmas the 1st tativka toilet block will be also rebuilt with increased capacity - If you can help with this and other ongoing projects please contact David Hassett.

The Federal Government Water Grant provided funds for new low flush toilets & fittings, supply & install of additional water tanks and upgrading the septic and black water systems to higher environmental standards.

Plast would like to particularly thank the following people who have put enormous time and effort into this project:

- David Hassett for coordinating the project, and assisting with construction
- George Lubczenko for coordinating, supervising and carrying out construction works
- Ihor Osidacz for preparing plans for council
- Dirk van Florestein for assisting with construction, site preparation & fire planning
- John Kotowskyj for engineering assistance
- Paul Danyluk for assisting with

construction
- All of the other people who have helped out at working bees.

SOKIL UNDER NEW MANAGEMENT!

Plastova Staytsia Victoria is pleased to announce that John Kotowskyj has officially taken over managing Sokil. Arrangements are being made to allow plast

members to use Sokil at a reduced rate. Details will follow in the new year.
